## 1. Sendai is on the way to recovery!

### Greetings

Sendai was damaged by the horrible earthquake and tsunami disaster on March 11th. As the damage was so huge, we are still in difficult situation. However, we heartily hope and try hard to revive our city Sendai!

We would like to let you know the current news of Sendai with this paper.

We will send news!

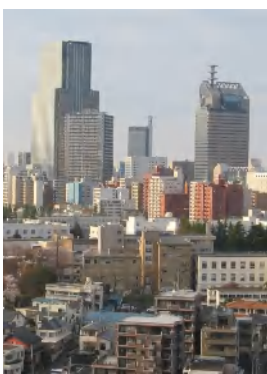

Because of the effort of the people in Sendai, and thanks to the support from all over the world, Sendai is now recovering step by step!

People gradually come back to downtown - Chuo-dori Avenue (中央通)

「がんばろう」(Gambaro) means "Move forward together!"

Fortunately, there was not serious damage in the downtown Sendai.

Public transportation in Tohoku region is still suspended in some places due to the disaster. However, it is steadily recovering now. The flights between Tokyo (Haneda Airport) and Sendai have already started since April 13th, and the Shinkansen will start their operation between Tokyo and Sendai on April 25th. Our lives gradually become as usual!

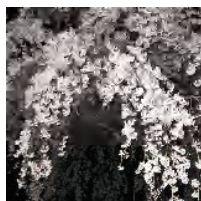

Sendai station is now under repair to prepare for the restart of the Shinkansen.
